

## Dynamic Noise Cancelling Fist Mic w/ Momentary Switch

*Congratulations on your purchase of your Australian Monitor microphone.*

The **AM-DFM** is a dynamic, noise cancelling fist microphone suited to paging, dispatch and other speech applications. Featuring a shock-mounted capsule, hardened steel mesh grill, heavy duty momentary Push-To-Talk switch and corrosion resistant body, the AM-DFM is both well featured and durable for the demands of a commercial environment, suited ideally for all paging applications.

The noise cancelling design and tailored frequency response ensures high intelligibility without compromising natural tone reproduction and excellent gain before feedback – critical for any environment with high ambient noise. The AM-DFM is also ideally suited to harsh environments, capable of withstanding high temperature, high humidity, vibration and dropping.

### SPECIFICATIONS:

Type	Noise Cancelling Dynamic
Frequency Response	100Hz – 5kHz
Sensitivity:	-66dBV/Pa (0.5mV/Pa)
Output Impedance:	200 Ohms
Output Connector:	5 wire, bare ends White – Audio positive Black – Audio negative Drain – Audio ground Green – Switch Red - Switch
Cable Length	3.4m
Dimensions:	32mm x 300mm
Weight:	250g
